Notes & Assumptions:

1: Taxes & Operating Expenses were not provided for 1700 Penny Lane. This is a unique situation as Crow Holdings is closing on the redevelopment site 9/9/26 and there is a potential Class 6B tax incentive associated with this opportunity. For the sake of this analysis, **T&Os have been included at an estimated 2027 passthrough of $3.75/SF**, escalated 3% annually thereafter.

2. For the sake of this analysis, 100% of the Tenant Improvement Allowance provided has been applied. Project costs are high level estimates only; the final scope of work and associated costs are to be confirmed by the Landlord and further validated via construction pricing from a General Contractor.

3: Landlord to offset 10,000 SF of excess space for 12 months on the 5-year term and 15 months on the 7-year term, commencing immediately after the applicable base rent abatement period.
